## PROFESSIONAL EXPERIENCE

**TJSB Sahakari Bank Ltd.**

**August 2021 - Present**

### Junior Officer (E-1)

- Involved in database development by creating SQL queries, PL/SQL functions, and procedures.
  - Retrieving data from the Oracle database.
  - Working with the SQL Loader and control files to load data into different tables.
  - Producing reports for branch users and providing data for various purposes.
  - Using the Microsoft Report Builder Tool to create and enhance reports.
  - Currently working on the CBS Project of the Bank within the Report Teams.
  - Validating reports in TCS Bancs software for a new CBS project.
  - Creating different scenarios to test these reports and performing report validation in TCS Bancs.
  - Running batch processes in Jenkins and SOS Berlin software to test reports.
  - Using Bugzilla software to raise bugs in TCS Bancs reports.
  - Analyzing various ODS for report development purposes.
  - Contributing to various regulatory reports and creating or executing test cases for both internet and mobile banking.
  - For the new CBS Project, use Jaspersoft Studio to develop Jasper reports, deploy them to the server, test them, and review the error log files.
  - For the Data Warehouse, check multiple views in the UAT and Production databases to ensure fields match the front-end and identify any gaps between them. Furthermore, verify that the data generated in the views corresponds to the data displayed on the front end.
-
