OBJECTIVE

Ambitious MCA candidate aspiring to gain industry exposure and hands-on experience in a leading technology company, where I can apply my theoretical knowledge in practical scenarios and contribute to the organization's technological advancements.

EDUCATION

Master of Computer Application (MCA)

L.J. Institute of Computer Application - L.J. University · Ahmedabad, Gujrat · 2024 · 7.08/10 (CGPA) Present

Bachelor of Computer Application (BCA)

Saurashtra University · Gujrat · 2023 · 7.50/10(CGPA)

H.S.C - 12th

GSEB · Gujrat · 2020 · 61.57%

S.S.C - 10th

GSEB · Gujrat · 2018 · 67.33%

PROJECTS

Sales Data Analysis - Python(Pandas), SQL, Excel, Power BI

· Analyzed a retail sales dataset to identify sales trends, customer behavior, and product performance. Performed data cleaning, exploratory data analysis, and visualization using Python libraries such as Pandas and Matplotlib. Key insights included identifying the top-selling products, peak sales periods, and customer demographics. Recommendations were made to optimize inventory management and marketing strategies.

Employee Attrition Analysis - Python(Pandas), SQL, Excel, Power BI

· Conducted an in-depth analysis of employee attrition data to identify key factors contributing to turnover within a mid-sized company. The project involved data cleaning, exploratory data analysis, and the application of statistical techniques to uncover trends and patterns.

Movie Ratings Analysis - Python(Pandas), SQL, Excel, Power BI

· Analyzed a dataset of movie ratings to uncover patterns in viewer preferences, identify the highest-rated genres, and determine factors that contribute to a movie's success. The project involved data cleaning, exploratory data analysis (EDA), and data visualization.
