CAREER OBJECTIVE

To work in such an environment that effectively utilizes my problem-solving, teamwork, and interpersonal skills to achieve solutions that help the organization to meet its targets and allow it to grow, as well as to enhance my own skills as an individual.

ABOUT

I am a **Software Engineer** at **Operative** working at Pune, MH. Experienced with 4 years of Agile-driven teamwork in Angular 15+, JavaScript, TypeScript, HTML, CSS, and Restful Web services. Strong grasp of OOP, analytical skills, and quick adaptability. Recognized for critical contributions and on-time deliveries in high-pressure situations. Ex-Senior Software Engineer at **Persistent Systems-Top Talent 2022**.

I completed my Engineering from Nashik, MH in **Information Technology** from **K. K. Wagh Institute of Engineering Education and Research-KKWIEER, Nashik** which comes under **Savitribai Phule Pune University - SPPU** with an excellent academic record.

I like to learn new-new different-different technologies and work with them so that whenever a new real Use Case comes up, I can solve them in an optimized and efficient manner. Recently earned an **AWS Certified Cloud Practitioner**.

PROJECTS

- **Advertising Operating System(AOS)**

Mar 2021 - Present

Associated with Operative

AOS, or Advertising Operating System, is a software platform designed to streamline and optimize advertising campaigns across multiple channels. It typically offers features such as campaign management, audience targeting, analytics, and automation tools to help advertisers maximize their ROI.

- **Hot seating at Persistent Systems**

Nov 2020 - Feb 2021

Engineered a system where the Persistent Systems employees can book a seat whenever they visit any office in Pune and can confirm that the place is booked for seating.
