

Abdul Ajiz S.S

Software Engineer proficient in React, Node, Express, Python, and PostgreSQL. Experienced in full-stack development, version control with Git/GitHub, and passionate about global networking. Active in communities like Cloud Riyadh and other tech groups. Enthusiastic about attending web conferences and fostering meaningful connections.

EDUCATION

Francis Xavier Engineering College, Tirunelveli — B.E in Computer Science and Engineering

2021 - 2025 : Current CGPA : 8.3

EXPERIENCE

Software Engineer Intern : SkillRank, March 2024-September 2024

Contributed to testing, bug fixing, and feature development at SkillRank and Kavia-AI, ensuring high-quality deliverables. Developed and optimized backend services using Node and Python for enhanced functionality. Conducted frontend-backend integration testing between ReactJS and APIs. Utilized Linux and Git/GitHub for efficient version control and collaboration. Implemented error logging in SkillRank to streamline debugging and real-time issue tracking.

PROJECTS

Employee Referral Management System : PERN STACK

Designed and implemented a robust referral platform enabling user registration, login, and personalized referral portals. Users can securely refer candidates, manage referrals with full CRUD operations, and ensure data integrity through JWT authentication and bcrypt. Built with PostgreSQL, Express.js, React.js, and Node.js for a scalable and efficient system.

My Portfolio Website : React Js

Created a professional portfolio website using React Js, garnering praise for its design and functionality, bolstering online presence and personal branding.

Text and Voice Based Chatbot Application : Python & SQLite

Created a Python chatbot using Tkinter for text and voice interaction, with SQLite for chat history and APIs for information retrieval.
