

# Atish Ghate *PLSQL DEVELOPER*

✉ atishghate03@gmail.com

☎ 7769011962

📍 Nagpur , India

## Profile

---

Experienced engineer with a proven track record in specialized PLSQL development, boasting 3.7+ years of hands-on experience in designing, implementing and maintaining database solutions. Recognized for consistently delivering high-quality solutions, meeting critical deadlines, and exceeding expectations. Seeking an opportunity to contribute my expertise to a dynamic software organization, to contribute my skills and experience, aiming to enhance my professional journey and make a valuable impact on the organization's growth.

## Certificates

---

- Oracle Database sql : 1Zo-071
- Oracle Database program with PLSQL -1ZO-049

## Professional Experience

---

2024/07 – present  
pune, India

### Senior Software Engineer

*LTIMINDTREE*

#### Projects:-

**Project Title :- Banking Project**

**Role : PLSQL Developer**

#### Responsibilities:

- Developed efficient PL/SQL scripts, stored procedures, and functions for data extraction, transformation, and loading (ETL) processes.
- Optimized PL/SQL scripts and queries to handle large datasets efficiently, improving migration performance and reducing processing time.
- Analyzed source and target data structures, defined mapping rules, and performed data profiling and cleansing to ensure seamless migration.
- Collaborated with cross-functional teams to define and execute data migration strategies, ensuring alignment with business goals and technical requirements.
- Performed Unit Testing in database level and integration Testing on application to test the enhanced process.

2021/06 – 2024/07  
Pune, India

### Senior System Engineer

*Infosys*

#### Infosys Limited

Senior System Engineer

#### Projects:-

**Project Title :- Banking Project**

**Role : PLSQL Developer**

#### Responsibilities:

- Developed Stored Procedures, Functions, database Triggers and created Packages to access databases from front end screens
- Developed triggers and packages to delete stored session data from various tables
- Debugged various defects related to implementation of business logic
- Monitored performance and changed performance requirements through application of Database tuning and performance optimization techniques.
- Collaborate with other team members and stakeholders.

**Project Title :- Insurance Project****Role : PLSQL Developer****Responsibilities:**

- Designed and developed complex PL/SQL stored procedures, functions, packages, and triggers to support business applications.
- Optimized SQL queries and PL/SQL code, improving performance and reducing execution time using tools like SQL Trace and Explain Plan.
- Implemented database security measures, conducted regular backups, and ensured data integrity and availability.
- Worked closely with cross-functional teams to resolve complex database and system issues, providing effective solutions and enhancements.

**Skills**

---

PLSQL, SQL	Unix Shell scripting
Bit bucket	Github
snowflake	Pyspark

**Education**

---

2016/08 – 2020/07	<b>Bachelor of Engineering</b>
Nagpur, India	<i>Nagpur University</i> St.Vincent Pallotti college of Engineering and Technology , Nagpur

**Awards**

---

**Learning Champ**

Awarded with this for the dedication and commitment on learning new things.
